

Project Report

Project name - MAZE

Project track- To take the Ball from Start Position to End Position.

Project Outline:

In this game, you have to take the Ball in different mazes from starting position to end position following the suitable path using arrow keys.

Steps taken to complete project:

1. Making different types of mazes using `canvas.drawLine`.
2. Making a ball using `canvas.drawCircle`
3. Implementing different types of Functions.

Conclusion:

- Learnt JavaScript and HTML .
- Experienced working in a team, facing errors many times and resolving them with patience.
